CAREER OBJECTIVES

I am a self motivated and hardworking individual who is always up for any challenge. I love to explore new angles in the existing ideas. I am always eager to get acquainted with new concepts and technologies. My eventual goal is to develop healthy relationships with people around me and work in an environment that encourages my growth.

PROJECTS

SAFE KEEPER   (link to code)

This is a note making application that can save notes for different profiles separately. It uses offline authorization system using local database.

SUDOKU   (link to code)

This application allows users to play the classic game of Sudoku as well as solve a sudoku puzzle that they input. It has three difficulty levels based on the time given by the countdown timer.

MY LIBRARIAN   (link to code)

This application implements a handy book management system. It keeps track of the people to whom you lent your books or from whom you borrowed theirs.

NEWS APP   (link to code)

This application fetches the current happenings around the globe on to your phone.

TIC TAC TOE   (link to code)

This application implements one of the most classic games of all times - Tic Tac Toe. It is a double player game.

ACHIEVEMENTS

- Reached a maximum rating of 1999 (4 stars) at CodeChef.
- Achieved 5 stars in C++ at HackerRank.
